1910 PRICE LIST 1910

IN presenting our price list this season we call attention to the fact that North Dakota now has a PURE SEED LAW which is in full operation and effect. In preparing our seeds this season we have had tests constantly at the State Control Laboratory, our own laboratory tests have been more vigorous than ever before and we have no hesitancy in recommending our seeds, of all varieties, as of even a higher standard than required by our STATE PURE SEED LAW.

We exercise extreme care in the filling of all orders but as seeds are subject to such a variety of climatic conditions after being planted in the ground, we give no warranty, expressed or implied, as to quality, description, or productiveness, and will in no way be responsible for the crop.

We recommend the testing of all seeds on arrival and if they do not meet your requirements return them at once at our expense and we will cheerfully refund your money.

We have been in the seed business for years and have built up our large volume of business through the reputation which follows the furnishing of GOOD SEEDS.

The prices listed herein are subject to market fluctuations and may be changed without notice. WRITE FOR SPECIAL PRICES ON CAR LOAD LOTS.

We are always glad to furnish samples of our seeds on application free of charge.

HALF RATES OF FREIGHT ON SEEDS.

We ship Seed Grains on special seed rates from February 1st to July 1st, and Grass Seeds, Clover, Millet, and Rape, from January 1st to July 1st. Special rates apply on both small shipments and carload lots.

If you want anything in farm seeds not listed here, write us, and we will quote prices at once.

Send for our booklets on Alfalfa and Clover Culture in North Dakota, they are free, and may help you to get started right.

Home Raised Seed Corn

Our seed corn is all North Dakota grown, except as otherwise stated. It has all been kiln dried by us, and thoroughly tested. We can also furnish results of Official tests on application.

NORTHWESTERN DENT: An 85 day Red Dent Corn, with medium kernels and medium sized cob. Has a fine, leafy stalk, with ears well up from the ground so it can be cut with binder. The earliest Dent Corn grown, and we recommend it for any part of the Northwest. \$1.75 per bushel.

NORTHWESTERN DENT—IMPROVED: A new variety bred up from Northwestern Dent. Distinctive features being larger ears and taller stalks. Especially recommended for Central and Southern North Dakota. \$2.00 per bushel.

MINNESOTA KING: A Yellow Half Dent corn, with wide, flat kernel, which ripens in ninety days. Ears grow well up, roots deep, and recommended as a great drouth resister. \$1.75 per bushel.

GOLDEN DENT: The earliest Yellow Dent in the world, ears grow well up, in demand with feeders for early fall finishing of cattle. Only a limited supply to offer. \$1.75 per bushel.

UNIVERSITY No. 13: A Yellow Dent corn, very productive, adapted for all soil conditions. Stalks grow well up, leafy, and makes a fine fodder. Matures in ninety-five days. Northern Minnesota grown. \$1.75 per bushel.

PRIDE OF NORTH: A Yellow Dent, deep grain, small cob and a heavy yielder. Well adapted for feeding to stock in bundles without husking. South Dakota Grown. \$1.50 per bushel.

KING PHILIP FLINT: A Red Flint with good sized ears, heavy yielder. \$1.75 per bushel.

SQUAW FLINT: Pure white, very early. Stalks short and ears growing close to ground. \$2.00 per bushel.

GEHU FLINT: Yellow, short stalk, extra early. \$2.00 per bushel.
